

Business Environment Supports Groundwork North London

On the 9th January 2009, Business Environment donated £4,000.00 to Groundwork North London.

This donation went towards Groundwork's project to create an exciting outdoor play and learning environment for the pupils of Clerkenwell Parochial CE Primary School.

Claire Newill, Funding and Development Officer for Groundwork wrote to Business Environment to say "The support of Business Environment is a significant contribution towards this project. The money will be used to transform the school grounds into a challenging and creative play space. The pupils, parents, teachers and parent governors wish to improve the outdoor facilities, to create an outdoor classroom, suitable for use for before and after school activities. The project is made up of several elements including refurbishing the ball court, creation of a climbing wall and specially designed climbing frame.

On behalf of Groundwork North London and Clerkenwell School thank you for choosing to support this project and the lasting contribution it will make to this community."
